

RUGGER Bourdon Tube Pressure Gauges,
Stainless Steel Series.

Specifications according to data sheet: PM 02.02.

Measuring system: stainless steel 316L.

Case: stainless steel with pressure vent.

Bezel ring: cam ring (bayonet type), stainless steel.

Accuracy class: % 1.0.

Process connection & C tube Material: 316L STST.

Nominal size: **160 mm**

Unit: bar/psi.

Working Pressure:

Short time: 1.3 x full scale value.

Process connection: **1/2 NPTM**

Connector position: **Bottom**

mounting : **surface mount with 3holes back flange**

Window: laminated safety glass.

Pointer: adjustable with micro screw.

Ingress Protection: IP65.

Blow-out protection , Material vition

filled with glycerin oil.

range : **در رنج های مختلف موجود است:**

Made in Switzerland .
